

Based on Growing in tunnel 8.5m wide utilising 30L square or round pots

3 rows per Tunnel

Not to scale

- Pots @ 83cm centres gives 120 pots per 100m row
- This equates to having a gap of 45cm at the top of the pot between each pot in the row
- Plant comes out approx 45 cm from centre of pot in first year, more in following years
- Gives a total of 4,233 pots/plants per Hectare
